AXIS CLASSIC

The Axis family of cervical collars' universal sizing helps reduce inventory and save on storage space. This extended wear collar incorporates lightweight plastic and generous padding that helps to reduce contact points in the occipital area. The contoured anterior and posterior panels are designed to allow for a high degree of conformity to the anatomy for comfortable positioning of the head and neck.

ADDITIONAL FEATURES:

- 12-Point Locking Height Adjustment
- Extra Pad Set Included for Wash-and-Wear Convenience
- Large and Secure Locking Knob
- Injected Molded Hook Stays in Place
- Large Tracheal Opening for Improved Airway Management
